- Database: MSSQL 2000 and 2005, MySQL 4.0 and 5.0
- Tools: Eclipse, MS Visual Studio 2003 and 2005, MySQL Query Browser, phpMyAdmin

Professional Experience

January 2008 – Present: Software Developer – RTW, Inc

Responsible for complete rewrite of core workers compensation insurance underwriting application as well as maintenance and fixes on other core windows applications. Pioneered efforts and given ownership of an on-line hosted version of core underwriting application. Designed and implemented several prototypes of framework libraries for use throughout all web-based software developed internally.

Technologies: VB.NET, .NET 2.0, MSSQL 2005, Javascript, AJAX, SOAP

June 2006 – December 2007: Software Developer - SAP Labs, LLC

Hired into a 'Developer I' position to maintain a commerce and CRM application and to help leverage the existing code base into a hosted ASP model. Designed and implemented an attribute matrix tool that allowed customers to do bulk orders with various configurations and built an asynchronous XML engine to synchronize data from our product to SAP accounting systems. Was promoted to 'Developer II' after seven months.

Technologies: C#, .NET 2.0, MSSQL 2005, Javascript

May 2007 – Present: Contractor

Developed custom applications and public websites for individuals and small businesses including fauxfolio, a hosted solution that organizes portfolios of work for decorative painting professionals; studio 253 finishes, public website of a client that displays pictures and data from his fauxfolio account; pussywood custom cat towers, commerce site for a local seller of custom pet furniture.

Technologies: Ruby, Rails, MySQL 4.0 and 5.0, Javascript, AJAX

May 2005 – June 2006: Software Developer - Internet Destination Sales Systems

Developed a facility space reservation system with dynamic attributes and advanced search functionality. Helped maintain and develop features in a sales and CRM application.

Technologies: C#, .NET 1.1, MSSQL 2000, Javascript

May 2004 - May 2005: Manager – Matchbox

Part owner of a small coffee shop in North-East Minneapolis. No longer actively involved but spent a year sharing in management responsibilities.
